

The **FIVE SIGNS OF SUFFERING** may indicate that you or someone you know might need help:

Their personality changes.

They seem uncharacteristically angry, anxious, agitated or moody.

They withdraw or isolate themselves from other people.

They stop taking care of themselves and may engage in risky behavior.

They seem overcome with hopelessness and overwhelmed by their circumstances.

Change Direction of mental health

One in five people
has a diagnosable mental
health condition.

Many more of us experience
emotional suffering for which we
rarely reach out for support.
